

MAGNATECH LED
Simply brilliant

Optolite Nova®

Description

The **Optolite Nova®-500** was designed to replace all lighting stadiums and tunnels as well as any application requiring high light intensity.

This extremely powerful floodlight is a major improvement over conventional systems since the operator can choose the color temperature and the power of luminous flux.

The significant reduction of maintenance is of obvious interest for this type of use.

It is consistent with public lighting standards. Reliable and robust, **Optolite Nova®-500** is a rapidly amortized investment.

Advantages

- ✔ Adapted to high risk area ;
- ✔ Resistant to shock and vibration ;
- ✔ No glare or Ultraviolet radiation;
- ✔ Up to 80% energy saving ;
- ✔ Ideal for replacing a metal halide lamp 800-1000W.

Applications

- ✔ Large indoor area
- ✔ Industrial area
- ✔ Outdoor Area
